TERMS AND CONDITIONS OF PURCHASE

These Terms apply when referenced by Buyer's purchase order or other documentation.

- Offer; Acceptance; Exclusive Terms; Identity of Buyer; Country Supplement. Each purchase order or purchase order revision issued by Buyer ("Order") is an offer to Seller for the purchase of goods and/or services ("Supplies") and includes and is governed by these Global Terms and Conditions of Purchase, together with any applicable Country Supplement (collectively, "Terms"). When accepted, the Order supersedes all prior agreements, orders, quotations, proposals and other communications regarding the goods and/or services covered by the Order, except that a signed prior agreement (such as an award letter, Statement of Work or Non-Disclosure Agreement) will continue to apply. Seller accepts the Order, including these Terms, and forms a contract by doing any of the following: (a) commencing any work under the Order; (b) accepting the Order in writing; or (c) any other conduct that recognizes the existence of a contract with respect to the subject matter of the Order. **The Order is limited to and conditional upon Seller's acceptance of these Terms.** The Order does not constitute an acceptance of any offer or proposal made by Seller. Buyer will only agree to supplemental seller agreements if they are acknowledged, signed and included with the quote .
- Time Period of Order. Subject to Buyer's termination rights, the agreement formed by the Order is binding on the parties for one year from the date the Order is transmitted to Seller or, if an expiration date is stated in the Order or a signed agreement, until that date.
- Quantity; Material Releases; Delivery. Quantities listed in each Order as estimated are Buyer's best estimate of the quantities of Supplies it might purchase from Seller for the contract term specified in the Order. If no other quantity is stated on the face of the Order or if the quantity is blank or states zero, "blanket," "see release" or similar term, then for consideration of US\$10.00 to be paid by Buyer upon expiration or termination of the Order, Seller grants to Buyer an irrevocable option during the term of the Order to purchase Supplies in such quantities as determined by Buyer and identified as firm orders in material authorization releases, manifests, broadcasts or similar releases ("Material Releases") that are transmitted to Seller during the term of the Order, and Seller will supply all such Supplies at the price and other terms specified in the Order; provided that the Buyer may purchase no less than a minimum quantity of at least one piece or unit of each of the Supplies and no more than 100% of Buyer's requirements for the Supplies. If the Order covers services, Buyer is required to purchase such services to the extent expressly stated in a Statement of Work signed by Buyer. If "price" is stated as 1.000 on an Order covering installment performance of a fixed total quantity, then quantity is 1 and the number shown under "quantity" is the price. Unless expressly stated on the face of the Order or in a signed agreement, Buyer is not required to purchase Supplies exclusively from Seller. Buyer may require Seller to participate in electronic data interchange or similar inventory management program, at Seller's expense, for notification of Material Releases, shipping confirmation and other information. Material Releases are part of the Order, are governed by these Terms and are not independent contracts. Time and quantities are of the essence under the Order. Seller agrees to 100% on-time delivery of the quantities and at the times specified by Buyer, as stated in the Order and related Material Releases. Buyer may change the rate of scheduled shipments or direct temporary suspension of scheduled shipments, neither of which entitles Seller to modify the price for Supplies. Buyer is not obligated to accept early deliveries, late deliveries, partial deliveries or excess deliveries. Unless otherwise agreed in writing by Buyer, the risk of loss passes from Seller to Buyer upon delivery to Buyer's transportation carrier (or if shipment is by Seller or common carrier, then upon delivery to Buyer's designated facility), but title passes to Buyer only upon receipt by Buyer at Buyer's facility where the Supplies are to be used.
- Invoicing and Pricing; Freight. Except as expressly stated in the Order under the heading "Freight," the price of Supplies includes storage, handling, packaging and all other expenses and charges of Seller. Except as otherwise stated in the Order, Supplies will be shipped FCA (loaded) at Seller's final

production location, using Buyer's transportation. All invoices for the Supplies must reference the Order number, amendment or release number, Buyer's part number, Seller's part number where applicable, quantity of pieces in the shipment, number of cartons or containers in the shipment, bill of lading number, and other information required by Buyer. Buyer will pay proper invoices complying with all of the terms of the Order. The total price also includes all duties and taxes except for any governmentally imposed value added tax (VAT), which must be shown separately on Seller's invoice for each shipment. Buyer is not responsible for any business activity taxes, payroll taxes or taxes on Seller's income or assets. Seller will pay all premium freight costs over normal freight costs if Seller needs to use an expedited shipping method to meet agreed delivery dates due to its own acts or omissions. Seller will pay any costs incurred by Buyer, including costs charged by Buyer's customer(s) to Buyer, as a result of Seller's failure to comply with shipping or delivery requirements.

5. Packaging; Marking; Shipping; Disclosure; Special Warnings or Instructions. Seller will: (a) properly pack, mark, and ship Supplies according to the requirements of Buyer/Seller as quoted in the RFQ Package, the involved carriers and the country of destination; (b) route the shipments according to Buyer's instructions; (c) label or tag each package according to Buyer's instructions; (d) provide papers with each shipment showing the Order number, amendment or release number, Buyer's part number, Seller's part number (where applicable), number of pieces in the shipment, number of containers in the shipment, Seller's name and number, and the bill of lading number; and (e) promptly forward the original bill of lading or other shipment receipt for each shipment according to Buyer's instructions and carrier requirements. Seller will promptly provide Buyer with the following information in the form requested by Buyer: (i) a list of all ingredients and materials in Supplies; (ii) the amount of all ingredients, and (iii) information concerning any changes in or additions to the ingredients. Before and at the time Supplies are shipped, Seller will give Buyer sufficient warning in writing (including appropriate labels on all Supplies, containers, and packing, including without limitation disposal and recycling instructions, material safety data sheets and certificates of analysis) of any hazardous or restricted material that is an ingredient or part of the Supplies, together with any special handling instructions that are needed to advise carriers, Buyer, and their employees how to take appropriate measures while handling, transporting, processing, using or disposing of the Supplies, containers, and packing. Seller agrees to comply with all national, state, provincial, and local laws and regulations pertaining to product content and warning labels, including without limitation the U.S. Toxic Substances Control Act. Seller will reimburse Buyer for any expenses incurred as a result of improper packing, marking, routing, or shipping.

6. Customs; Related Matters. Credits or benefits resulting from the Order, including trade credits, export credits or the refund of duties, taxes, or fees, belong to Buyer. Seller will provide all information and certificates (including NAFTA Certificates of Origin) necessary to permit Buyer (or Buyer's customers) to receive these benefits or credits. Seller agrees to fulfill any customs- or NAFTA-related obligations, origin marking or labeling requirements, and local content origin requirements. Export licenses or authorizations necessary for the export of Supplies are Seller's responsibility unless otherwise stated in the Order, in which case Seller will provide the information necessary to enable Buyer to obtain the licenses or authorizations. Seller will promptly notify Buyer in writing of any material or components used by Seller in filling the Order that Seller purchases in a country other than the country in which the Supplies are delivered. Seller will furnish any documentation and information necessary to establish the country of origin or to comply with the applicable country's rules of origin requirements. Seller will promptly advise Buyer of any material or components imported into the country of origin and any duty included in the Supplies' purchase price. If Supplies are manufactured in a country other than the country in which Supplies are delivered, Seller will mark Supplies "Made in [country of origin]." Seller will provide to Buyer and the appropriate governmental agency the documentation necessary to determine the admissibility and the effect of entry of Supplies into the country in which Supplies are delivered. Seller warrants that any information that is supplied to Buyer about the import or export of Supplies is true and that all sales covered by the Order will be made at not less than fair value under the anti-dumping laws of the countries to which the Supplies are exported.

7. Inspection; Non-Conforming Goods/Services; Audit. Buyer may enter Seller's facility to inspect the facility, Supplies, materials, and any of Buyer's property related to the Order. Buyer's inspection of Supplies, whether during manufacture, prior to delivery, or within a reasonable time after delivery, does not

constitute acceptance of any work-in-process or finished goods. Buyer's acceptance, inspection, or failure to inspect does not relieve Seller of any of its responsibilities or warranties. Nothing in the Order releases Seller from the obligation of testing, inspection and quality control. If defective Supplies are shipped to and rejected by Buyer, the quantities under the Order will need replaced immediately unless Buyer otherwise notifies Seller. In addition to other remedies available to Buyer: (i) Seller agrees to accept return, at Seller's risk and expense at full invoice price, plus transportation charges, and to replace defective Supplies as Buyer deems necessary; (ii) Buyer may have corrected at any time prior to shipment from Buyer's plant Supplies that fail to meet the requirements of the Order; and/or (iii) Seller will reimburse Buyer for all reasonable expenses that result from any rejection or correction of defective Supplies. Seller will document corrective actions within a commercially reasonable period after receipt of a defective sample and will take whatever measures necessary to correct the defect. Payment for nonconforming Supplies is not an acceptance, does not limit or impair Buyer's right to assert any legal or equitable remedy, and does not relieve Seller's responsibility for latent defects. Upon reasonable notice to Seller, either Buyer or its direct or indirect customers may conduct audits at Seller's production facility for the purpose of quality, cost or delivery verification. Seller will ensure that the terms of its contracts with its subcontractors provide Buyer and its customers with all of the rights specified in this Section.

8. Payment. Except as otherwise provided in these Terms, Buyer will pay proper invoices on the payment terms stated in the Order or the applicable Country Supplement, if any. Invoices for tooling and/or capital equipment must be issued only as approved, as provided in the Order. Buyer may withhold payment pending receipt of evidence, in the form and detail requested by Buyer, of the absence of any liens, encumbrances, or claims on Supplies provided under the Order. Payment will be made in the currency expressly stated in the Order; if no such currency is noted, payment will be made in U.S. Dollars. Payment will be made by mailing on or before the due date unless otherwise expressly agreed by Buyer.

9. Changes. Buyer reserves the right to direct changes, or to cause Seller to make changes, to drawings, specifications, sub-suppliers, samples or descriptions of Supplies. Buyer also reserves the right to otherwise change the scope of the work covered by the Order, including work with respect to such matters as inspection, testing or quality control. Buyer may also direct the supply of raw materials from itself or from third parties. Seller will promptly make any such requested change. In order for Seller to request a reasonable difference in price or time for performance as a result of such a change, Seller must notify Buyer of its request in writing within ten days after receiving notice of the change. Buyer can request additional documentation from Seller relating to any change in specifications, price or time for performance. Seller will not make any change in the Supplies' design, specifications, processing, packing, marking, shipping, price or date or place of delivery except at Buyer's written instruction or with Buyer's written approval.

10. Warranties. Seller expressly warrants and guarantees to Buyer, to Buyer's successors, assigns and customers, that all Supplies delivered to Buyer will: (a) conform to the specifications, standards, drawings, samples, descriptions and revisions as furnished to or by Buyer; (b) conform to all applicable laws, orders, regulations and standards in countries where Supplies or vehicles or other products incorporating Supplies are to be sold, including without limitation the National Traffic and Motor Vehicle Safety Act, United States motor vehicle safety standards.

11. Supplier Standards, Quality and Development; PPAP; Required Programs. Seller will conform to the quality control and other standards and inspection systems as established or directed by Buyer and Buyer's customer. This may include without limitation quality control policies, The Current ISO 9001: or ISO/TS 16949: quality certification. Seller will also participate in Buyer's supplier quality and development programs as directed by Buyer. Seller agrees to meet the full requirements of industry Production Part Approval Processes (PPAP) when specified by Buyer and (as applicable) Buyer's customer(s) and agrees to present this information to Buyer upon request. The Seller will participate in and comply with the following Buyer programs and standards of Advanced Quality Planning (AQP) and supplier performance evaluations.

12. Force Majeure. Any delay or failure of either party to perform its obligations will be excused if and to the extent that the party is unable to perform specifically due to an event or occurrence beyond its reasonable control and without its fault or negligence, such as: acts of God; restrictions, prohibitions, priorities or allocations imposed or actions taken by a governmental authority; embargoes; fires; explosions; natural disasters; riots; wars; sabotage; inability to obtain power; or court injunction or order. The change in cost or availability of materials, components or services based on market conditions, supplier actions or contract disputes will not excuse performance, and Seller assumes these risks. As soon as possible (but no more than one full business day) after the occurrence, Seller will provide written notice describing such delay and assuring Buyer of the anticipated duration of the delay and the time that the delay will be cured. During the delay or failure to perform by Seller, Buyer may at its option: (a) purchase Supplies from other sources and reduce its schedules to Seller by such quantities, without liability to Seller; (b) require Seller to deliver to Buyer at Buyer's expense all finished goods, work in process and parts and materials produced or acquired for work under the Order; or (c) have Seller provide Supplies from other sources in quantities and at a time requested by Buyer and at the price set forth in the Order. In addition, Seller at its expense will take all necessary actions to ensure the supply of Supplies to Buyer for a period of at least 30 days during any anticipated labor disruption or resulting from the expiration of Seller's labor contracts.

13. Proprietary Rights. Seller agrees: (a) to defend, hold harmless and indemnify Buyer, its successors and customers against claims of direct or contributory infringement or inducement to infringe any proprietary right (including any patent, trademark, copyright, moral, industrial design right or misuse or misappropriation of trade secret) and against any resulting damages or expenses, including attorneys' and other professional fees, settlements and judgments, arising in any way in relation to Supplies procured or provided by Seller (including without limitation their manufacture, purchase, use and/or sale), including such claims where Seller has provided only part of Supplies, and Seller expressly waives any claim against Buyer that such infringement arose out of compliance with Buyer's specification, except to the extent such infringement is actually embodied in designs created by Buyer and provided in writing to Seller; (b) to waive any claim against Buyer, including any hold-harmless or similar claim, in any way related to a third-party claim asserted against Seller or Buyer for infringement of any proprietary right (including any patent, trademark, copyright, moral, industrial design right or misuse or misappropriation of trade secret); (c) that Buyer and its subcontractors and direct or indirect customers have the worldwide, irrevocable right to repair, reconstruct or rebuild, and to have repaired, reconstructed or rebuilt, Supplies delivered under the Order without payment of any royalty or other compensation to Seller; (d) that manufactured parts based on Buyer's designs, drawings or specifications may not be used for Seller's own use or sold to third parties without Buyer's express written consent; (e) to assign to Buyer each invention, discovery or improvement (whether or not patentable) that is conceived or first reduced to practice by Seller, or by any person employed by or working under the direction of Seller, in the performance of the Order; (f) to promptly disclose in an acceptable form to Buyer all such inventions, discoveries or improvements and to cause its employees to sign any papers necessary to enable Buyer to obtain title to and to file applications for patents throughout the world; (g) to the extent that the Order is issued for the creation of copyrightable works, that the works will be considered "works made for hire," and to the extent that the works do not qualify as such, to assign to Buyer upon delivery thereof all right, title and interest in all copyrights and moral rights therein (including any source code); and (h) not to assert any claim against Buyer, Buyer's customers, or their respective suppliers, with respect to any technical information that Seller has disclosed or may disclose to Buyer in connection with the Supplies covered by the Order, except to the extent expressly covered by a separate written confidentiality and/or license agreement signed by Buyer or by a valid patent expressly disclosed to Buyer prior to or at the time of the Order. Except as expressly agreed by Buyer in a signed writing, all Supplies or other deliverables provided under the Order (including without limitation computer programs, technical specifications, documentation and manuals) will be original to Seller and will not incorporate any intellectual property rights (including copyright, patent, trade secret or trademark rights) of any third party. Except as expressly agreed by Buyer in a signed writing, all deliverables of services provided under the Order, and all related intellectual property rights, are owned solely by Buyer. Seller will ensure that the terms of its contracts with its subcontractors and employees are consistent with the terms of this Section. At no additional cost, Seller will grant Buyer a paid-up license to use any additional or background intellectual property owned or acquired by Seller that is necessary or incident to the reasonably intended use or application of the Supplies.

14. Buyer's Property. All tooling (including fixtures, gauges, jigs, patterns, castings, cavity dies and molds, with all related appurtenances, accessions, and accessories), packaging and all documents, standards or specifications, trade secrets, proprietary information and other materials and items furnished by Buyer, either directly or indirectly to Seller to perform the Order or for which Buyer has agreed to reimburse Seller (collectively, "Buyer's Property"), will become property of Buyer or its customer (including passage of title) as it is fabricated or acquired, regardless of payment. Buyer's Property will be held by Seller or by a third party, to the extent that Seller has transferred possession of Buyer's Property to a third party, on a bailment basis as a bailee-at-will. Seller bears the risk of loss of and damage to Buyer's Property. Seller is solely responsible for inspecting, testing and approving all Buyer's Property prior to any use, and Seller assumes all risk of injury to persons or property arising from Buyer's Property. Buyer's Property will be housed, maintained, repaired and replaced by Seller at Seller's expense in good working condition capable of producing Supplies meeting all applicable specifications, will not be used by Seller for any purpose other than the performance of the Order, will be conspicuously marked by Seller as the property of Buyer, will not be commingled with the property of Seller or with that of a third person, and will not be moved from Seller's premises without Buyer's approval. Seller will insure Buyer's Property with full fire and extended coverage insurance for its replacement value. Any replacement of Buyer's Property will become Buyer's property. Seller may not release or dispose Buyer's Property to any third party without the express written permission of Buyer. Buyer will have the right to enter Seller's premises to inspect Buyer's Property and Seller's records regarding Buyer's Property. Only Buyer (or Buyer's affiliates) has any right, title or interest in Buyer's Property, except for Seller's limited right, subject to Buyer's sole discretion, to use Buyer's Property in the manufacture of Supplies. Buyer and its affiliates have the right to take immediate possession of Buyer's Property at any time without payment of any kind. Seller agrees to cooperate with Buyer if Buyer elects to take possession of Buyer's Property. Effective immediately upon written notice to Seller, without further notice or legal action, Buyer has the right to enter the premises of Seller and take possession of all of Buyer's Property. Seller expressly waives any right to additional notice or process and agrees to provide Buyer or its nominee(s) with immediate access to Buyer's Property. Seller grants to Buyer a limited and irrevocable power of attorney, coupled with an interest, to execute and record on Seller's behalf any notice financing statements with respect to Buyer's Property that Buyer determines are reasonably necessary to reflect Buyer's interest in Buyer's Property. At Buyer's request, Buyer's Property will be immediately released to Buyer or delivered by Seller to Buyer either (i) FCA (loaded) transport equipment at Seller's plant, properly packed and marked in accordance with the requirements of Buyer's selected carrier, or (ii) to any location designated by Buyer, in which case Buyer will pay Seller the reasonable costs of delivery. Seller waives, to the extent permitted by law, any lien or other rights that Seller might otherwise have on any of Buyer's Property, including but not limited to molder's and builder's liens.

15. Seller's Property Seller, at its expense, will furnish, keep in good working condition capable of producing Supplies meeting all applicable specifications, and replace when necessary, all machinery, equipment, tools, jigs, dies, gauges, fixtures, molds, patterns and other items that are not Buyer's Property and that are necessary for the production of Supplies ("Seller's Property"). Seller will insure Seller's Property with full fire and extended coverage insurance for its replacement value. If Seller uses Seller's Property to produce goods or services similar to Supplies for other customers, including aftermarket customers, such goods or services will not incorporate any of Buyer's logos, trademarks, trade names or part numbers. Seller will not disclose or imply in its marketing efforts that such goods or services are equivalent to those purchased by Buyer. Seller grants to Buyer an irrevocable option to take possession of and title to Seller's Property that is special for the production of Supplies under the Order upon payment to Seller of its net book value less any amounts that Buyer has previously paid to Seller for the cost of such items. This option does not apply if Seller's Property is used to produce goods that are the standard stock of Seller or if a substantial quantity of like goods are being sold by Seller to others.

16. Confidentiality. Seller acknowledges that proprietary and confidential information will be received from Buyer or developed for Buyer under the Order, regardless of whether such information is marked or identified as confidential. All terms of the Order are deemed proprietary and confidential information of Buyer. Seller agrees to keep all proprietary or confidential information of Buyer in strictest

confidence, and further agrees not to disclose or permit disclosure to others, or use for other than the purpose of the Order, any proprietary and confidential information of Buyer. Following the expiration or termination of the Order, upon Buyer's request, Seller will promptly deliver to Buyer any and all documents and other media, including all copies thereof and in whatever form, that contain or relate to Buyer's confidential or proprietary information. Seller's obligations under this Section will continue for a period of five years from the date of disclosure of information covered by this Section, unless a longer period is specified in writing by Buyer. The restrictions and obligations of this Section will not apply to information that: (a) is already publicly known at the time of its disclosure by Buyer; (b) after disclosure by Buyer becomes publicly known through no fault of Seller; or (c) Seller can establish by written documentation was properly in its possession prior to disclosure by Buyer or was independently developed by Seller without use of or reference to Buyer's information. Notwithstanding anything to the contrary in these Terms, any confidentiality or non-disclosure agreement between the parties that predates the Order will remain in effect except as expressly modified by the Order, and to the extent of a conflict between the express terms of such an agreement and this Section, the terms of that agreement will control.

17. Relationship of Parties. Seller and Buyer are independent contracting parties and nothing in the Order will make either party the employee, agent or legal representative of the other for any purpose. The Order does not grant either party any authority to assume or to create any obligation on behalf of or in the name of the other. Seller will be solely responsible for all employment and income taxes, insurance premiums, charges and other expenses it incurs in connection with its performance of the Order, except as expressly provided in a written agreement signed by Buyer. All employees and agents of Seller or its respective contractors are employees or agents solely of Seller or such contractors, and not of Buyer, and are not entitled to employee benefits or other rights accorded to Buyer's employees. Buyer is not responsible for any obligation with respect to employees or agents of Seller or its contractors.

18. Conflict of Interest. Seller represents and warrants that its performance of the Order will not in any way conflict with any continuing interests or obligations of Seller or its employees or contractors. Seller further warrants that while the Order is in effect, Seller and those of its employees and contractors participating in the performance of the Order will refrain from any activities which could reasonably be expected to present a conflict of interest with respect to Seller's relationship with Buyer or its performance of the Order.

19. Non-Assignment. Seller may not assign or delegate its obligations under the Order without Buyer's prior written consent. In the event of any approved assignment or delegation authorized by Buyer, Seller retains all responsibility for Supplies, including all related warranties and claims, unless otherwise expressly agreed in writing by Buyer.

20. Sales Tax Exemption. The Supplies purchased under the Order are identified as industrial processing and may be exempt from sales taxes. In such case, the tax identification number and/or other exemption information are stated in the Order, the applicable Country Supplement or are otherwise provided by Buyer.

21. Governing Law; Arbitration; Jurisdiction. The Order is to be construed according to the laws of the jurisdiction as stated in the applicable Country Supplement; if no such jurisdiction is specified, the Order will be governed by the laws of the State of Indiana and the United States of America. The provisions of the United Nations Convention on Contracts for the International Sale of Goods, and any conflict-of-laws provisions that would require application of another choice of law, are excluded. The arbitration provisions of this Section will be governed by the United States Federal Arbitration Act.
